

# What to Expect

## Initial Evaluation/Assessment

On your first visit with us, we will collect all relevant information by paperwork and evaluation. This consists of discussing your medical history and any specific goals you may have for yourself. Your treatment plan will be developed based on this information.

## Treatment

After your evaluation, you will receive a treatment. The length of your sessions and their frequency will be decided upon based on your diagnosis. Dr. Sullivan will recommend a schedule to suit your needs.

To support you in attaining your goals, this process will be individualized according to your stage of healing and your specific needs. Your status will be re-evaluated throughout your treatment, and new treatment strategies will be developed as needed.

Please notify Dr. Sullivan if you develop any of the following changes in medical status after beginning treatment: pregnancy, injury, car accident, fall, heart attack, surgery, or other new medical prognosis.

## Financial Policy

Acupuncture Healing Arts Center and Dr. Sullivan do not participate with private insurance carriers. It is our policy to collect payment on the day of your treatment session. Patients are financially and legally responsible for charges incurred. We accept checks, cash, Visa and MasterCard.

If your insurance covers acupuncture, we will help to facilitate your reimbursement by submitting a standard HCFA form.
